

# A3.003

We're now organizing HUNTER'S CARDSET using the letters M.A.T.R.I.X. Each letter has four rows—M1, M2, M3, M4—and each row contains seven sub-cards, labeled M1.001, M1.002, M1.003, and so on up to M1.007. This card arrangement is inspired by Niklas Luhmann's note-taking method, and we encourage you to create your own cards in each row. Download the 7 cards from the link below, and let's build them together!

### A3.003: Leaf Cards (Nature-Inspired Method)

#### Story Script (Introduction for Parents and Children):

This attachment card encourages children to create nature-inspired cards by using leaves and petals. Just like Niklas Luhmann's method of organizing ideas into themes, children will create a card system based on nature!

#### Step 1: Collect Leaves and Petals

- Niklas Luhmann Reference:
- Luhmann grouped his ideas into themes. For kids, this means collecting natural elements like leaves and petals to inspire their cards.

#### For Kids:

- Go outside and collect some leaves and flowers. These will help you create a card about nature! Maybe it's the kindergarten's magical garden where children play and learn.

## Step 2: Creating Your Card

### Tip:

- Take your leaves and petals and glue them onto a blank card or piece of paper. This is your nature card! You can call it "The Magical Garden" or whatever you like.

## Step 3: Adding a Title and Explanation

### Tip:

- With your parent's help, give your card a title. You can also write a sentence explaining what the nature elements represent. For example:
- "This is the magical garden where children can learn about plants and nature."

### Example Card for Inspiration:

- Title: The Magical Garden
- Materials: Leaves, petals, and small flowers.
- Explanation: "This garden is where children in the kindergarten learn about plants from all over the world."

### Magic Sentence for Kids:

"Today, my magic sentence is: The garden is my favorite classroom!"

### Reward Mechanism for Motivation:

- Weekly: After creating a nature card every day for a week, earn the Nature Explorer sticker.
- Monthly: After completing 30 nature cards, get the Garden Creator badge.
- 180 Days: At the end of 180 days, earn the Best Kindergarten Garden Award for creating a magical nature card set!

### Tips for Parents:

- Take your child outside to collect natural materials like leaves, flowers, or small twigs.
- Help your child attach these elements to paper and organize them into different themes (e.g., garden, forest, playground).
- Let your child express their imagination by using nature to inspire their ideas.

### Conclusion:

With this nature-inspired card, children are learning how to use the world around them to create and organize their ideas. The magical kindergarten continues to grow with every new leaf and petal added to their card!
