

A3.006

We're now organizing HUNTER'S CARDSET using the letters M.A.T.R.I.X. Each letter has four rows—M1, M2, M3, M4—and each row contains seven sub-cards, labeled M1.001, M1.002, M1.003, and so on up to M1.007. This card arrangement is inspired by Niklas Luhmann's note-taking method, and we encourage you to create your own cards in each row. Download the 7 cards from the link below, and let's build them together!

A3.006: Thematic Card Sets – Grouping Ideas Together Like Luhmann

Story Script (Introduction for Parents and Children):
This attachment card shows children how to group similar ideas together into themed sets, just like Luhmann did with his cards. Kids can create themed sets of cards for different areas of the dream kindergarten.

Step 1: Choosing a Theme

Tip:

- Pick a theme for your card set. Maybe it's "Outdoor Fun" or "Learning Spaces." Each card in the set should explore a different part of that theme.

Step 2: Drawing the Cards

Tip:

- Draw a series of cards that match your chosen theme. For example, if your theme is "Outdoor Fun," you could draw the playground, the garden, and the picnic area.

Step 3: Writing a Short Explanation

Tip:

- Write a short explanation for each card in the set. For example: "This is the garden where kids learn about plants and nature."

Example Card Set for Inspiration:

- Theme: Outdoor Fun
 - Card 1.001: The Playground
 - Card 1.002: The Magical Garden
 - Card 1.003: The Picnic Area

Magic Sentence for Kids:

"Today, my magic sentence is: I can organize all my fun ideas into themes!"

Reward Mechanism for Motivation:

- Weekly: After creating one themed card each day for a week, your child can earn a Theme Star sticker.
- Monthly: After completing 30 themed cards, your child earns the Master Organizer badge.
- 180 Days: After completing 180 themed cards, your child receives the "Kindergarten Theme Master" Award for creating a full themed card set!

Tips for Parents:

- Help your child choose a theme and create a set of cards that fit within that theme.
- Encourage your child to think about how each card connects to the others.

Conclusion:

By organizing their cards into themes, children learn how to build connections between their ideas, just like Luhmann!
