13.002: Hosting Family Innovation Workshops (Early Childhood Focus)

Core Concept	Search Keywords (Inbound/Outbound)	Related Network Resource	Linked Action	Practical Example / Impact
<p>Hosting Family Innovation Workshops: Design workshops that focus on innovation and creative problem-solving through building, experimenting, and imaginative play. These workshops encourage families to explore new ideas and solve challenges using creative tools, fostering collaboration and innovation.</p>	<p>Inbound Keywords: - Search "family innovation workshops" or "creative innovation activities for families" - 1. Family innovation workshops for early childhood - 2. Family problem-solving innovation - 3. Collaborative family creativity workshops Outbound Keywords: - Use phrases like "global family innovation programs" or "Montpellier family creative workshops"</p>	<p>1. Innovation Workshop Toolkit: Search "family innovation workshop toolkit" to find resources that guide families through innovation-focused activities like building, experimenting, and creative problem-solving. 2. Purdue Family Innovation Learning Kits: Search "Purdue family innovation kits" for guides that help families foster creativity through innovative building and problem-solving tasks. 3. Montpellier Family Innovation</p>	<p>1. Create Innovation-Based Kits for Workshops: Build kits with activities that encourage families to experiment and solve challenges through creative building and problem-solving. 2. Tailor Workshops Based on Family Interests: Customize the activities to align with family interests, focusing on innovation through building, experimenting, and play. 3. Search Montpellier Innovation Programs: Use</p>	<p>Practical Example: In October 2023, the Delacroix family in Montpellier attended a family innovation workshop, where they built bridges using household items to solve a challenge presented by the workshop leader. Each family member contributed ideas, turning the challenge into a collaborative and educational experience. Impact: The Delacroix family improved their innovation and problem-solving skills, and their children gained confidence in experimenting with new ideas. They shared their results at a local creative fair in Montpellier.</p>

		<p>Programs: Search "Montpellier family innovation workshops" to find local programs that teach families how to engage in creative innovation through hands-on activities. 4.</p> <p>Global Innovation Learning Platforms: Explore international platforms offering tools for family-centered innovation and creativity.</p>	<p>"Montpellier family innovation programs" to explore local workshops that focus on building and experimenting with creative tools. 4.</p> <p>Incorporate Digital Tools: Add apps or platforms that encourage innovation through interactive building games and virtual problem-solving.</p>	

Search Breakdown for I3.002:

1. Tippecanoe Local Resources:

- **Tippecanoe Family Innovation Workshops:** Search "Tippecanoe Family Innovation Workshops" to find local programs that teach creative problem-solving through innovative activities. **Location:** Tippecanoe County Library, 2024 Winter Workshop Series, December 2023. **Characters:** Led by a local maker expert, the Barnes family participated, building a catapult from recycled materials to solve a distance challenge.
- **Family Innovation Kits:** Use "Family Innovation Kits in Tippecanoe" to explore resources that promote creative thinking through hands-on projects. **Plot:** The Jones family attended a library event where they built models from cardboard, designing new uses for everyday materials.

2. Purdue University Resources:

- **Purdue Family Innovation Learning Kits:** Search "Purdue Family Innovation Kits" for guides that teach families to think creatively through problem-solving activities like building and experimenting. **Location:** Purdue Engineering Building, Family Innovation Day, February 2024. **Characters:** The Anderson family built a model bridge to simulate structural engineering challenges.

- **Purdue Feedback Programs:** Explore "Purdue Innovation Feedback Programs" for advice on adjusting innovation workshops based on family interests. **Plot:** Purdue hosts monthly feedback sessions where families, like the Chang family, share their innovation project successes and challenges.
3. **Montpellier Local Resources:**
- **Montpellier Family Innovation Workshops:** Search "Montpellier Family Innovation Workshops" to find local programs that promote family creativity and innovation. **Location:** Montpellier Makerspace, Creativity Week, November 2023. **Characters:** The Martin family collaborated to build a functioning clock from discarded items. **Plot:** Families work together to solve design challenges using repurposed materials.
 - **Montpellier Innovation Kits:** Use "Montpellier Family Innovation Kits" to explore workshops that focus on innovation through interactive building activities. **Location:** Local schools host monthly innovation days. **Plot:** The Berthier family participated in a storytelling-building challenge, creating mechanical puppets.
4. **Global Authoritative Resources:**
- **Global Family Innovation Platforms:** Search "Global Family Innovation Platforms" to find international communities that promote creative innovation through games and hands-on activities. **Characters:** The Clark family from London shared their innovation projects with an online community, receiving feedback from global makers. **Plot:** They solved design challenges using online tools and building kits shared by the platform.
 - **DIY Digital Innovation Tools for Families:** Search "DIY Digital Innovation Tools" to find apps and platforms that promote creativity through building and problem-solving games. **Plot:** Families participate in virtual challenges to design and build structures, collaborating with other families online.
