PAPER—WE'LL TAKE \$1 OFF THE CARD'S PRICE.

MATRIX KIDS CARDS MUSEUM

*Love you*

*Dear Friend,*

In my special science place, I have a pencil, some paper, numbers, and music lines. In my mom's room, we create tiny things like people, tables, cars, and use a remote to make them go. We learn about 'being the same.' Like, one tree can be as tall as another tree, or two chairs can be just alike. Even numbers can be friends and match up, like  $1+1$  and  $2+2$  are both pairs. We see that things can be equal, like one sea is as big as another sea, and it's fun to discover!
