PAPER—WE'LL TAKE \$1 OFF THE CARD'S PRICE.

MATRIX KIDS CARDS MUSEUM

*Love you*

*Dear Friend,*

We line up our learning adventures from 1 to 10. I have a funny idea: can one be like a brick, and two also be like a brick? It might sound silly, but it's like magic. If we think about it, a brick can be a number, getting bigger or smaller in our stories. It's a fun way to play with numbers and see how they can change and still be part of our story.
