PAPER—WE'LL TAKE \$1 OFF THE CARD'S PRICE.

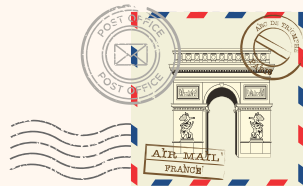

MATRIX KIDS CARDS MUSEUM

*Love you*

*Dear Friend,*

Intelligence, portrayed through geometric shapes, buildings, and historical figures, spans various domains.

From the angle of a triangle representing a degree of intelligence to the square for another dimension, architectural marvels stand tall, telling tales of history, science, thought, philosophy, theory, and purpose. Great minds like Confucius, Newton, Einstein, Leeuwenhoek, and the Curie couple exemplify intelligence's diverse manifestations.
